

RECLAIM YOUR RADIANT SMILE WITH YOMI

ADVANCED TECHNOLOGY WILL HELP YOU
ACHIEVE THE SMILE OF YOUR DREAMS

— NORTH TEXAS —
DENTAL CARE

For years, you have dedicated yourself to your family, ensuring their happiness and wellbeing at every stage. The years of selflessly caring for your family might have inadvertently led to neglecting your own needs - including your oral health. As your children leave the nest and venture out into the world, it's time to **shift your focus back on yourself.**

Now that you wish to return your smile to its most radiant, it's normal to have some concerns. It could be that the current condition of your mouth makes you embarrassed to smile at all, and you're afraid of how much it would cost to reclaim your once luminous smile. When you think about going to the dentist, the following questions arise:

"How much is this going to cost?"

"Are they going to make fun of me?"

"Will this treatment be painful?"

"How can they possibly fix my teeth the way they are?"

These are common questions we know our patients ask themselves. It's natural to feel ashamed of how we've let our own oral health fall to the wayside as we raised our families. **This is not your fault.** Some people don't need to brush a day in their lives and they won't ever get a cavity, while others who brush and floss several times a day require extensive dental work. There are two things Dr. Jeffrey A. Nelson wants you to know:

- 1 It's not your fault
- 2 No matter the current state of your mouth, Dr. Nelson and his amazing team at North Texas Dental Care can restore your glorious smile

As we strive to offer the best possible care to our patients, North Texas Dental Care is committed to **leveraging leading technology for your benefit**. By integrating advanced innovations into our practice, we can provide you with a wide range of treatment options that are not only effective, but also **tailored to your specific requirements** and budget.

One revolutionary technology we've implemented at North Texas Dental Care has transformed the field of dental implantology - **Yomi Robotic Guidance**. This innovative system combines the precision of robotics with the expertise of our skilled dental team, improving the dental implant process and enhancing the outcomes for our patients.

Yomi - the first and only system for robotic guidance in dental implant surgery in the United States - is the culmination of several dental technologies which aid in precise and minimally invasive dental implant placement. Yomi allows us to use your digital scans and X-rays to accurately plan the placement of your implant to ensure lasting results. When Dr. Nelson selects the position, Yomi ensures your implant is placed accurately so you can **have the smile you've always wanted**. Because Yomi uses your digital scans, it can see below your gums, which eliminates the need for Dr. Nelson to open your gums so he can view your bone. This means either no incision, or a smaller incision, no sutures, or fewer sutures (depending on the situation), and in the long run it means less pain and a **quicker recovery**.

"With the Yomi system, we can ensure **unparalleled accuracy and predictability** in implant placement," says Dr. Nelson. "This leads to improved success rates, and reduced treatment and recovery times. Because of Yomi, we can plan and execute implant procedures with exceptional precision, maximizing the functionality and aesthetics of your new smile. We're proud to be the only practice in Greenville, Texas, to use it."

Yomi doesn't replace Dr. Nelson - it merely aids in the placement of your implant. Dr. Nelson will be in control the entire time.

THREE STEPS TOWARD THE SMILE OF YOUR LIFE

HERE'S HOW NORTH TEXAS DENTAL CARE
CAN HELP YOU ACHIEVE THE SMILE OF YOUR DREAMS

1. TELL US ABOUT ALL OF YOUR DENTAL CONCERNS/FEARS

At North Texas Dental Care, we pride ourselves on providing exceptional care that begins the moment you step through our doors, and continues until the time you leave. Our team of compassionate and skilled professionals goes above and beyond to ensure your utmost comfort and satisfaction. During your initial consultation, we will not only discuss all available treatment options, but we will discuss all of your personal concerns and fears. We genuinely want to understand everything that bothers you about your oral health, because that plays a role in how we take care of you. We believe in transparency and we aim to eliminate any surprises when you're with us, which is why Dr. Nelson and our team will be by your side, guiding you through every step, with unwavering support and care.

2. DETERMINE THE PROPER TREATMENT PLAN NECESSARY

Based on your needs and history, Dr. Nelson and his team will determine the proper treatment plan with you. You will be involved every single step of the way. And if you have questions before or during your procedure, ask away. The last thing we want is for you to feel confused or in the dark about anything we do with you.

3. HAVE THE BEST DENTAL EXPERIENCE OF YOUR ENTIRE LIFE

Relax, sit back, and take a deep breath, as all your dental needs will soon be expertly handled, leaving you improved oral health, and with the smile you've always wanted.

Imagine the freedom and the joy of effortlessly laughing and fully expressing yourself without feeling self-conscious about the appearance of your teeth.

Can you imagine the excitement of reconnecting with your friends and having them marvel at your remarkable smile when you meet them for coffee?

Envision the pride you'll feel as you confidently share your radiant smile with your loved ones at the next family gathering.

Just think of looking in the mirror, flashing your brightest smile, and finding a way to smile even bigger because of it?

Picture yourself receiving unparalleled dental care in our advanced operatories, designed to provide you with a comfortable and exceptional experience. And then imagine leaving our office with the most dazzling, radiant smile of your entire life.

The time to go to the dentist is now, and North Texas Dental Care is grateful for the opportunity to gently walk you through your treatment.

Schedule your appointment with us today, call

903-415-6355

Don't wait one minute longer to get the smile you've always deserved. You can trust the North Texas Dental Care team to provide you with the most comfortable, soothing dental care you have ever experienced in your entire life.
